Vendors self-declaration			
<p>Our consulting services are tailored to the challenges of our customers. Our passion: to find the best solutions for them. Thanks to the breadth of our portfolio and our many years of experience in the healthcare sector, we can provide hospitals and other healthcare institutions with comprehensive advice on the topics of "Healthcare IT (strategy, processes, integration, etc.)".</p> <p>Aveniq Logicare AG is ideally placed to provide holistic support to companies in the healthcare sector in all IT matters and to accompany them as a long-term partner on their way to a digital healthcare ecosystem. We are proud to list many long-standing, satisfied customers in the healthcare sector.</p> <p>As one of the leading IT service providers for Swiss SMEs, we offer hospitals innovative and customised solutions of the highest quality and without detours. We implement and operate IT processes and applications so that healthcare facilities can focus on their patients. We work closely with our customers to develop solutions that drive their digitalisation process and give them a competitive edge.</p>
