Vendors self-declaration			
<p>medshare a professional partner for all questions related to information and communication technologies (ICT) in the healthcare domain, providing ICT solutions from one source - tailored to your needs. medshare was founded in 2006 and is providing high quality consulting services and software development for all eHealth needs.</p> <p>In addition, medshare is expert in standardized eHealth communication transactions and payload contents. IHE is part of our core competences. medshare participates since 2007 in the development of Helvetic implementation guides and exchange formats, engages for the Open Source project "eHealth Connector", assisted IHE Europe concerning HL7 CDA and taught MedInf students in the module Interoperability at Bern University of Applied Sciences. And last but not least, medshare is providing the technical project manager of IHE Suisse who acts since 2010 as monitor at IHE Connectathons and was responsible for the technical infrastructure at the IHE Connectathon in Bern 2012 and EPR Projectathons since 2017. We are looking forward to your request and are highly motivated to assist you in reaching your interoperability and intercomparability goals.</p>
